Personal Project

eatfarro.com - eatfarro.com

Logo and graphic design, architecture, development and content creation.

Experience

Director / Technical Architect · Ozmosis Inc. · April 2011 – May 2012

Drupal architect, lead developer, and front-end designer for an enterprise-class social collaboration and content management system at a startup. Responsibilities include: advising on product feature sets and usability; converting business requirements to functional enhancements; creating graphical mock-ups for disparate client themes and feature concepts; performing pre-sales technical consultations; integrating with 3rd

party APIs, services and libraries; unit testing and cross-browser compatibility; and overall technical leadership for the platform.

Senior Web Developer (Contract) · Blue Cross Blue Shield · December 2009 - April 2011

- Developed over 40 pages of website concepts and prototypes using Adobe Photoshop, HTML, JavaScript, CSS and Drupal
- Designed prototypes for mobile-optimized web applications
- Applied usability concepts, development standards and Section 508 compliance
- Established, documented and trained on internal HTML/CSS coding and user interface design guidelines

Overall responsibility included acting as the front-end designer and developer for several critical applications on a 20+ member development team. Activities included consulting on user interface decisions, designing graphical mock-ups, developing browser client prototypes, presenting to clients, and quality control.

Web Developer / Project Manager · Segue Technologies · October 2007 – December 2009

- Developed websites and web applications using PHP, Drupal, HTML, JavaScript, CSS, AJAX, SQL
- Designed user interfaces, graphics and documents using Adobe Photoshop, Illustrator and InDesign
- Interfaced with clients to assess requirements, design application layouts and work flows, perform user-acceptance testing and product training
- Managed 22 projects among 18 clients, from sales to post-deployment maintenance
- Mentored junior developers, including training, professional development and code reviews

Senior Software Engineer · Institutional Shareholder Services · October 2004 - October 2007

Senior Systems Engineer · AlphaTech · February 2004 - October 2004

Senior Applications Developer (Contract) · SAIC · December 2003 - February 2004

Senior Application Developer (Contract) · TeleCommunication Systems · September 2002 - May 2003

Owner · The Batter House · November 2001 - September 2002

Application Developer (Contract) · Zurich-Scudder Investments · April 2000 - November 2001

Project Manager / Lead Developer · Internoded, Inc. · June 1999 - April 2000

Software Engineer · PFN Inc. · March 1999 - June 1999

Programmer Analyst · i-Cube Inc. · June 1997 - March 1999

Computer Lab Manager · Boston University · August 1996 - June 1997
